Position Description:

- Operating a Manual Mill with Conversational Package, to create parts with a focus on quality and accuracy
- Study and interpret drawings, blueprints, manuals, specifications or sample parts to determine dimensions and tolerances of finished work pieces, sequence of operations, tools to be used, and materials for the job and setup requirements.
- Plan the sequence of necessary actions for the completion of a job
- Take measurements and mark material for cutting or shaping
- Monitor machine while working to adjust the feed and identify issues
- Perform routine machine maintenance and repair minor damages
- Performs all tasks in a safe and responsible manner

Qualifications:

The Ideal candidate will have the following skills, attributes and experience:

- Currently enrolled or interested in becoming a registered Machinist Apprentice.
 - Basic understanding in using and/or programming Conversational Mills.
 - Physical stamina and strength to lift heavy items (up to 65 lbs).
 - Ability to read blueprints and schematics.
 - Team player while being able to work independently when needed
 - Possess excellent manual dexterity and an eye for detail.
-
- Knowledge of the properties of metal and other materials.
 - Has own toolbox and basic tools

We thank all applicants for their interest; however, we will only contact those that best meet our needs and qualifications.

In accordance with the Ontario Human Rights Code and the Accessibility for Ontarians with Disabilities Act, VTR Feeder Solutions is an equal opportunity employer who is committed to providing an inclusive and barrier free recruitment and selection process. Applicants should advise Human Resources if they require any type of accommodation during the recruitment process.
